DETAILED ACTION

Response to Amendment

Applicant's amendment dated 11/26/2007 in which claims 1-7, 9-11 were amended, and claim 8 was cancelled has been entered of record. Currently, claims 1-7, 9-11 are pending in light of the amendment.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claims 1-7, 9-11 are allowable.

The prior art is silent with respect to (b) uniquely determining a relationship between the polarity of the electric pulse to be applied between the first and second electrodes and the increase/decrease of the resistance value of the variable-resistance material, according to the polarity of the electric pulse applied in the step (a); and (c) changing the resistance value of the variable-resistance material to a desired value by selecting the first polarity or a second polarity where the potential of the first electrode is lower than that of the second electrode, according to the relationship determined in the step (b), and applying an electric pulse having the selected polarity between the first and second electrodes to increase/decrease the resistance value of the variable-resistance material, in combination with other limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
